

A one-day seminar on:

Wood Pellet Fuel Production

Tuesday 13th June 06

National Energy Centre, Milton Keynes

With concerns about climate change a hot political issue and the cost of fossil fuels increasing rapidly, interest in the use and production of wood pellets is at an all time high. If you have a supply of clean wood waste or own pelletising plant and are interested in getting into pellet production then this is the Conference for you.

TOPICS COVERED:

- Suitability and supply of raw material
- Economics
- Plant
- Pellet quality and regulations
- Different scales of production – from workshop to large scale
- Marketing of product
- Case Studies
- Funding opportunities

National Energy Centre new building

Organised by:

Supported by:

The day would also be suitable for those who are new to wood pellets who would like to get a general overview of the technology.
