

CAN YOU AFFORD TO KEEP THROWING YOUR WOOD WASTE AWAY?

POR Ecomec hydraulic briquetting machines from Delapre Machinery convert any natural dry wood waste to dust-free solid fuel briquettes, for space heating or retail sale.

- Simple, robust and reliable.
- Automatic operation.
- Takes sawdust, sander dust, shavings and hoggings.
- Capacities from 50 kg/hour to 350 kg/hour.
- Can be hand fed or fitted beneath a filter unit.
- Units at work throughout UK and Eire.

Heating your workshop with gas or oil?

Energy bills are rising and rising! Briquetting your loose wood waste lets you burn it with offcuts in a simple, hand-fed heater unit, and financial assistance may be available from The Carbon Trust to purchase equipment.

MODEL	CAPACITY K6/HR	BRIQUETTE DIAMETER mm	MOTOR KW	LENGTH cm	WIDTH cm	HEIGHT cm	WEIGHT KG
JUNIOR	30-50	50	5.5	168	110	150	680
